To whom it may concern!

How dare you consider removing the right for formulary pharmacies to send our hormone treatments to those of us who live in states without a formulary pharmacy! I get my natural hormones from a pharmacy in Madison, WI and live in Detroit. If you pass this regulation (only because the pharmaceutical companies want our business) I don't know what I and hundreds of other women will do. I trust my pharmacy and the quality of product and service they provide and I do not trust the large pharmaceutical companies. My hormone dosage is supervised by my doctor and I don't need the FDA to take on this role too!

For once, will you listen to us, to those who pay your salaries and not to the pharmaceutical companies who are more interested in their own profit. Or are you being paid by them!

I strongly oppose this Draft Memorandum.

Sincerely,

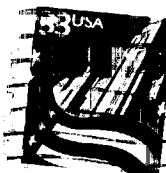

Ann Schumacher
